Next.js

TailwindCSS

GSAP

MERN Stack

GIT / GitHub

TRAINING / COURSES

React Training with Projects

Intensive month-long React training, building real-world projects hands-on.

WordPress & SEO Training

Week-long training; applied in a college e-commerce project.

ABOUT ME

Motivated and enthusiastic web developer eager to apply my skills in a professional web development role. Seeking a position where I can continue to grow and contribute meaningfully to a team's success.

EXPERIENCE

webx Frontend Developer Intern

WebX 03/2025 – 06/2025 Lazimpat

Worked on multiple web projects using Next.js, Tailwind CSS and GSAP including travel websites and a bus booking system. Developed full frontends with reusable components, dynamic pages, and smooth UI animations. Collaborated with backend developers to integrate APIs and ensure seamless data flow.

PROJECTS

Wow Brows & Spa wowbrowsandspa.com

- Built a fully responsive beauty salon web app featuring service listings, appointment booking, and admin/employee dashboards for a freelance client.
- Built with React and TailwindCSS; focused on elegant UI and smooth experience aligned with the salon's brand identity.

Mystic Adventures mynepaladventures.com

- Built responsive UIs with animated hero sections using GSAP and Framer Motion; interactive package, blog, and detail pages.
- Integrated frontend with backend APIs for seamless booking flow and real-time data updates.

Epeak Expedition epeakexpedition.com

- Created reusable components with smooth navigation using Next.js and Tailwind CSS.
- Developed responsive UIs with GSAP and Framer Motion animations across dynamic pages.

Tansen Holidays tansen-holidays.vercel.app

- Developed a dynamic, responsive UI with a real-time seat booking interface and dynamic routes for blogs and package detail pages.

Real-Time Chat App helou.onrender.com

- Full-stack MERN chat app. Implemented Socket.io, JWT, and bcryptjs for real-time messaging and secure authentication.
